## PROFESSIONAL EXPERIENCE

### Ethical Hacking Trainer & Technical Security Manager

*Appin Technology Lab | New Delhi | 2020 – 2026*

- Trained **500+ students** in ethical hacking, penetration testing, network security and VAPT; consistently rated among the top trainers for practical, lab-first delivery.
- Designed complete course modules covering OWASP Top 10, Metasploit, Burp Suite, Kali Linux, Nmap and Nessus.
- Delivered corporate ethical hacking workshops and bootcamps for enterprise cohorts.
- Led red team / blue team exercises and designed CTF challenges used across batches.
- Mentored learners in bug bounty hunting, exploit development and real-world penetration testing.

### Technical Security Executive

*Silent Front & Software Solutions | New Delhi | 2018 – 2020*

- Conducted VAPT and ethical hacking assessments on client networks and web applications.
- Monitored network security posture and implemented mitigation strategies for identified gaps.
- Prepared client-facing security reports, remediation guidance and training documentation for junior analysts.

## SELECTED PROJECTS

### RatanSec OS — AI-Driven Penetration Testing Environment

*Self-engineered · Kali toolchain + AI copilot · ratan-patel.github.io/ratansec-os.html*

- Bundles the Kali security toolchain (nmap, nikto, whatweb, gobuster, ffuf, nuclei, sqlmap, hydra, whois, dig) with an OpenRouter-powered AI copilot that runs tools via function calling, analyses output and drafts reports.
- Includes web dashboard, CLI, REST API, human-in-the-loop approvals for intrusive actions, target scope allowlist and a full audit log; distributed as free VM images (qcow2/raw), Docker image and one-command VPS installer.

### Red-Team Lab Simulator

*Browser-based hacking environment · ratan-patel.github.io/lab.html*

- Interactive browser lab with missions, simulated nmap/nikto/sqlmap/hydra/mimikatz tooling and a live terminal, used as a zero-setup teaching aid for beginners.
