Summary

Highly accomplished and CEH Certified Ethical Hacker with 6+ years of extensive experience in offensive security, vulnerability assessment, penetration testing (VAPT), and red teaming. Proven expertise in training and mentoring professionals and students in ethical hacking, web application security (OWASP Top 10), and incident response. Active bug bounty hunter contributing to the security of leading organizations.

Work Experience

Ethical Hacker Trainer & Technical Security Manager

Equator Cyber Solutions | South Extension, New Delhi **2020 - Present**

- Trained 500+ students and professionals in offensive security, vulnerability discovery, and secure server deployments.
- Designed and implemented comprehensive training modules for OWASP Web Application Security, Metasploit, Burp Suite, and Capture The Flag (CTF) exercises.
- Delivered high-value corporate ethical hacking workshops, established secure lab environments, and conducted thorough vulnerability assessments.
- Led red team challenges and custom attack simulation scenarios to enhance the defensive capabilities of internal security departments.

Technical Security Executive

Silent Front & Software Solutions | New Delhi 2018 - 2020

- Conducted manual and automated Vulnerability Assessment & Penetration Testing (VAPT) on network firewalls and enterprise applications.
- Monitored threat patterns, implemented immediate threat remediation guidelines, and managed firewall controls to ensure robust security postures.
- Generated comprehensive, actionable security assessment reports for diverse clients and corporate partners.

Ethical Hacking Trainer

Cyber Hunterz | Lucknow 2014 - 2018

- Conducted comprehensive training sessions on ethical hacking and cybersecurity fundamentals for students and professionals.
- Developed practical lab environments and course materials for hands-on learning experiences.
- Mentored aspiring security enthusiasts and provided career guidance in the cybersecurity domain.

Education & Certifications

Master of Science (MS) in Cybersecurity & Information Assurance

Western Governors University, USA 2023

- Specialized in threat modeling, advanced networks, cryptography, and information security policies.
