// WHO_AM_I

PROFILE_OVERVIEW

An accomplished ethical hacker, corporate cybersecurity mentor and threat-intelligence professional committed to securing modern digital infrastructure — and to training the people who defend it. Eleven years of hands-on offensive security and training delivery, spanning classroom fundamentals to enterprise red-team engagements across corporate, campus and consulting environments. Active bug bounty researcher on Synack, Bugcrowd and HackerOne, responsibly disclosing vulnerabilities that help organisations harden production systems.

"Security is not a product, but a continuous process of proactive training, assessment and rapid mitigation."

PASSPORT	Indian · valid to 2029
STATUS	Immediate Joiner
DEGREE	MS Cybersecurity (WGU, USA)
CERT ID	ECC92840 · to Jul 2027

// CORE_COMPETENCIES

SELF-ASSESSED · 11 YRS FIELD-VALIDATED

Ethical Hacking & Penetration Testing	96%
Vulnerability Assessment (VAPT)	94%
Web App Security (OWASP Top 10)	93%
Red Team Operations	90%
Network & Firewall Hardening	89%
Incident Response & Mitigation	87%
Cyber Threat Intelligence	85%
AI / LLM Security Testing	82%
Curriculum Design & Mentorship	97%

// SERVICE_MODULES

05 ACTIVE

MODULE_01
Red Teaming & Attack Simulation
Leading adversary-emulation exercises that surface real, exploitable paths before attackers find them — mapped to MITRE ATT&CK and reported with business impact.
ATT&CK · C2 OPS · PURPLE TEAM

MODULE_02
VAPT & OWASP Web Security
Deep, manual-first vulnerability assessment and penetration testing across networks, firewalls, APIs and the OWASP Top 10 — with remediation developers can ship.
OWASP TOP 10 · API SEC · NETWORK

MODULE_03
AI & LLM Security
Offensive testing of AI/ML systems: prompt injection, model abuse, data-poisoning risk, and securing intelligent pipelines against adversarial techniques.
PROMPT INJECTION · ML PIPELINE

MODULE_04
Corporate Cybersecurity Trainer
500+ corporate employees, SOC analysts and university students trained through live-fire labs, custom curriculum and CTF ranges built from real findings.
BOOTCAMPS · CTF RANGES · MENTORSHIP

MODULE_05
Bug Bounty Hunter
Active on Synack, Bugcrowd and HackerOne — responsibly disclosing vulnerabilities that help leading organisations harden their production stacks.
SYNACK · BUGCROWD · HACKERONE

// PROFESSIONAL_JOURNEY

2014 — 2026

2020 — 2026
Ethical Hacking Trainer & Technical Security Manager
Appin Technology Lab · South Extension, New Delhi
- Trained 500+ students and professionals in offensive security, vulnerability discovery and secure server deployment.
- Designed OWASP Web Application Security, Metasploit, Burp Suite and CTF training modules from scratch.
- Delivered high-value corporate ethical hacking workshops, lab builds and vulnerability assessments.
- Led red-team challenges and custom attack-simulation scenarios for internal security departments.

2018 — 2020
Technical Security Executive
Corax Cyber Security Ltd
- Ran manual and automated VAPT across network firewalls and enterprise applications.
- Monitored threat patterns, issued immediate remediation guidance and managed firewall controls.
- Produced comprehensive, actionable security assessment reports for clients and partners.

2014 — 2018
Ethical Hacking Trainer
Cyber Hunterz · Lucknow
- Delivered ethical hacking and cybersecurity fundamentals training for students and professionals.
- Built practical lab environments and course materials for hands-on learning.
- Mentored aspiring security enthusiasts with structured career guidance.

ACADEMIC_RECORD

GRADUATE · 2023
Master of Science (MS) — Cybersecurity & Information Assurance
Western Governors University, USA

Threat modelling, advanced network architecture, applied cryptography, security policy & governance, digital forensics, secure systems design.

CERTIFICATION · JUL 2024
Certified Ethical Hacker — EC-Council CEH v12
ID: ECC92840 · Valid to Jul 2027

Sniffing, exploit crafting, firewall & IDS evasion, wireless attacks, web application exploitation, social engineering, full-scope VAPT methodology.

DIPLOMA · 2013
PG Diploma — Computer Application
BTE, U.P. Lucknow · First Division

Technical communication, corporate workshop management, systems fundamentals, professional presentation craft.
